

CHLORIVAN

THE PRODUCT

CHLORIVAN Water purification tablets are effervescent tablets which kill micro-organisms in water to prevent cholera, typhoid, dysentery and other water borne diseases.

CHLORIVAN is a broad spectrum fast acting sanitizer and water sterilizer. rapidly effective against BACTERIA, VIRUSES, FUNGI and PROTOZOA.

CHLORIVAN makes water safe without boiling, Water once disinfected can be used for 24 hours if kept covered and free from further contamination.

ADVANTAGES

- RECOMMENDED by leading infection control experts
- EFFECTIVE against virtually all known bacteria, viruses and spores.
- SAFE to handle and store.
- COMPACT storage and transport reducing transport costs.
- ECONOMIC AND ACCURATE-no under or overdosing.
- GREATER BIOCIDAL EFFECT - Rapid release of HOCl encouraging fast biocidal activity forming clear disinfecting solution.
- FAST DISSOLVING and kills bacteria and viruses in just 30 mins
- STABLE tablets with 2 year shelf life.
- AVAILABLE in a wide selection of tablet strengths.
- RESISTANT to organic spoliage.
- Iodine FREE.

Requirement of chlorine for water treatment

- | | |
|--------------------------|-----------------------------|
| • Source of Water | Amount if Chlorine Required |
| • Bore well Water | 2 ppm (2 mg per liter) |
| • Well Water | 3 ppm (3 mg per liter) |
| • Pond Water/River Water | 5 ppm (5 mg per liter) |
| • Vegetable Wash | 25 ppm (5 mg / 75 liter) |

INSTRUCTION FOR USE

For EMERGENCY use with clouded water :

Dissolve 1 tablet in 10-12 litres of clean water. Heavily contaminated water should first be filtered or allowed to settle. (Water of unknow quality, surface water and open wells) For use with clear water and permanent HOUSEHOLD drinking water use.

Dissolve 1 tablet in 20 litres of clean and clear water. (Water from boreholes and clear municipal tap water). Allow contact for 30 minutes minimum before drinking.

CAUTION

- Do not mix with acid solutions of detergent.
- Avoid inhaling vapour and dust during handling. Irritant to eyes and respiratory system.
- Avoid contact with skin and eyes. In case of contacts with eyes. rinse immediately with plenty of water and seek medical assistance.
- Do not expose the product to flame. Do not incinerate.
- Avoid prolonged contact with stainless steel equipment.

Disinfectant

Store in a cool dry place.
Do not swallow the tablets
Keep out of reach of children

For Water Purification Only.
Not for Medicinal use.
केवल पानी शुद्धिकरण के लिये
खाने के लिये नहीं ।

CHLORINE TABLETS

700 Tablets

LOT 03488

EXP. 03/2014

Each 0.5 gm Tablet Contains:

Available Chlorine 25 mg.

Directions :

One tablet is useful for disinfection of 20 Litres Water. Use Water after 2 hours
