

# BESTOMECHINES

## (Manufacturer, Traders & Exporters )

Bestomechines has become one of the most experienced companies in the entire sector in Europe and the USA thanks to its strong focus on solar modules and solar systems – ranging from roof systems solutions and energy storage systems to turnkey full-scale power plants solutions. Work from low level from home lightings to power projects .Work with qualified experience quadrates In solar energy production.This step enabled the Group to expand its activities into the Middle East and to the Indian Subcontinent, and to establish itself as an innovative partner for photovoltaic projects in these regions. and operates today as Olasco International with its headquarters in India and offices in Niger, Fujairah, Dubai, the USA, India, Italy and Germany.

# Any time anywhere Solar power

## Solar portable Generators

### World Class solar portable generators

### Specifications

- We are manufacturer of world class solar portable generators with in build GPRS remote control system from production to fault identification.
- In Build battery bank for night application
- Complete foldable sliding to in hence the space and easy transport
- Within 4 hours complete system is ready for use
- With step-up transformer, auto cutoff, thunder shots protection fully grounded with earth
- High sensitive thermal circuit breakers fitted
- Fully fire protection with fire fittings instruments attached
- Range from 3kw to 30 kw
- Easy mountable in shipping containers
- Only one call service network is available after sale
- One year service is free for complete system

# Solar Power Plants

Power as per your needs Free and renewable

We have installed end number of solar power plants in India and Abroad

We design and delved very soficigated power plant which is easily serviceable

We have our own design team who with vast technical Knowledge in in depth work experience in the work from very small rages to very high range.

We the first used in the silicon mono crystalline high frequency solar panels

Our power plants are have very good efficiency in any climate condition , it generates power with 35 % of sun Insensitive and also long lasting .

we have world wide service centre with fast attending the service call.

we have in house testing center to test the solar panel in different parameters .

We design from 1KW TO 1000 MW

# Solar Water Pumping System

- Solar Water Pumping System Being a leader in the industry, we Natural engaged in providing our clients with a qualitative range of Solar Water Pump. Our product ranges from 1 HP to 50HP in AC applications while in DC it ranges from 1HP to 5HP. Our experienced professionals have installed more than 300 pumps using the latest technology. Owing to its easy installation and low maintenance cost, the offered pump is widely demanded.
- **System Features**
- Solar Panel
- AC/ DC Motor- Pump Set
- Pump Controller
- Module Mounting Structure
- Protection Systems for the Motor & Pump sets
- Weather resistance & water level protection
- Lower Operation & Maintenance Cost
- Irrigation purpose

# All In One Solar Street Lights

- **Patent Pending Design**
- The shape and design has been carefully studied to optimize all the construction. This is why we have applied for patent for our design.
- **No Cable Needed**
- Helios Solar powered outdoor lighting is very user-friendly and easy to install and does not require cables.
- **Lithium Battery**
- We apply the newest technology and use lithium battery to prolong product life.
- **Infrared Solar Motion**
- Helios All in one solar street light has a built-in passive infrared motion sensor that automatically regulates the LED light output from full brightness to a lower level depending upon the detection of movement around the light.
- **Light Weight Design**
- Compact volume and light weight design saves freight cost and installation cost.
- **Rust Proof**
- Our products are designed to avoid the rust presence. The rust is very dangerous for the LED street light system. So we prevent that making our street light LED with a special technology that avoid the rust. Let you try that!
- **Rustproof, Waterproof and Dustproof**
- What is missing? Our all in one solar street light products are rustproof, waterproof and dustproof. In this way, they can operate in safety and you will reduce maintenance time.
- All these features combine to create a unique product. Ready to use, highly efficient, eye catching and of course, INSANELY easy to install.

# THANK YOU!
